## HEALTH AND SAFETY POLICY

The company management is committed, by making human, instrumental and economic resources available, to pursue the objectives of improving the safety and health of workers, as an integral part of its activity and as a strategic commitment with respect to the more general purposes of the company.

It makes this document known and disseminates it to all the subjects of the company and undertakes to:

1. from the definition phase of new activities, or in the revision of existing ones, the aspects of safety and health are considered essential contents;
2. all workers are trained, informed and sensitized to carry out their duties safely and to assume their responsibilities in the field of Safety and Health at Work;
3. the entire company structure (employer, supervisors, RSPP, ASPP, first aid officers, firefighters, RLS, office workers, workers, etc.) participates, according to their powers and competences, in the achievement of the assigned safety objectives so that:
  1. the design of machines, plants and equipment, workplaces, operating methods and organisational aspects are carried out in such a way as to safeguard the health of workers, company assets, third parties and the community in which the company operates;
  2. information on company risks is disseminated to all workers; their training is carried out and updated with specific reference to the task performed;
  3. needs emerging in the course of work are dealt with quickly, effectively and diligently;
  4. cooperation between the various company resources, collaboration with business organizations and with external bodies in charge are promoted;
  5. all applicable laws and regulations are complied with, procedures are formulated and identified company standards are adhered to;
  6. are also managed with the aim of preventing accidents, injuries and occupational diseases. The design, operation and maintenance, including cleaning operations of workplaces, machines and plants, are addressed to this purpose.
